

Economic Development Resources

Douglas Norber
Project Manager

Education:

- University of Missouri – Columbia

Experience:

Mr. Norber is involved in a range of activities at EDR. His primary responsibilities are those of engaging in the field work necessary for Tax Increment Financing, Business District and Community Improvement District eligibility studies. In addition, Mr. Norber works on the research and compilation of data on sales, sales taxes, land values, property taxes, tax rates, employment and payroll for a wide variety economic impact reports and revenue forecasting analyses.

Prior to joining EDR, Mr. Norber had worked as a Research Analyst at Dresco Inc., a major real estate consulting firm then based in Dallas, Texas. His responsibilities there included the examination and assessment of commercial and industrial property ownership, and longitudinal analyses of the market values of such properties throughout the major real estate markets in the Southwest, focusing on metropolitan areas in Texas.
